PROFESSIONAL SUMMARY

Performance-driven **Full-Stack Engineer** with over 4 years of experience specializing in **AI-integrated SaaS, Geospatial systems, and secure Fintech solutions.** Expert in architecting production-ready applications using **Node.js, React Native, and Grok AI.** Proven track record of digitizing hospitality and financial workflows, including high-accuracy M-Pesa payment reconciliations and intent-based search engines. Focused on building scalable, high-performance systems that bridge the gap between design and complex backend logic.

TECHNICAL ARSENAL

- **Frontend & Mobile:** React.js, Next.js, React Native, Tailwind CSS, Redux, Figma-to-Code.
- **Backend & Cloud:** Node.js, Express, Firebase (Firestore, Functions, Auth), Render, PostgreSQL, MySQL.
- **AI & Logic:** Grok AI (xAI) Integration, Geospatial Mapping (Maps API), Automated Reconciliation Algorithms.
- **Integrations & Tools:** M-Pesa Daraja API, Cloudinary, RESTful APIs, Git/GitHub.
- **Payment & Fintech: PesaPal API (Double-Implementation)**, M-Pesa Daraja API, Automated Reconciliation Algorithms, Transactional Security, Webhooks & IPN Management.

KEY PROJECTS (PROOF OF WORK)

Reserve Me — AI-Powered Hospitality Engine |web: reserveme.ke mobile:

- **Role:** Lead Full-Stack Engineer (React Native, Node.js, Grok AI, Render)
- **Impact:** Architected a cross-platform mobile application featuring an intent-based search engine powered by **Grok AI**.
- Implemented **Geospatial logic** (Maps API) for real-time restaurant discovery and a secure **Node.js** backend deployed on **Render** to handle high-concurrency reservation data.

DukaRecon — Automated Financial Reconciliation | [Web Link] | [App Link]

- **Role:** Full-Stack Developer (React, React Native, M-Pesa API, Firebase)
- **Impact:** Engineered a complex matching algorithm to automate the reconciliation of **M-Pesa transactions** against internal business records.
- Reduced manual audit time by **80%** and ensured 99.9% data accuracy across a unified Web Dashboard and Mobile App ecosystem.

MTTA Awards — High-Traffic Live Voting Platform | [Live Link]

- **Role:** Full-Stack Developer (React, Firebase)
- **Impact:** Deployed a real-time voting ecosystem used in a live event environment with active public engagement.
- Scaled Firebase infrastructure to handle thousands of concurrent transactions and real-time vote tallying without downtime.

Art Community Platform — Creative UGC Ecosystem | [Live Link]

- **Role:** Full-Stack Developer (React, Redux, Sanity.io, Tailwind CSS)
- **Impact:** Architected a social platform for artists to showcase digital portfolios, implementing a high-performance **Headless CMS (Sanity)** for content management.
- Developed social features including user profiles, engagement metrics (likes/shares), and optimized image-heavy feeds for a seamless creative community experience.

Lagos Suya Spot — Transactional Ordering & Menu System | [Live Link]

- **Role:** Full-Stack Developer (React, Tailwind CSS, Firebase, PesaPal API)
- **Impact:** Engineered a high-performance e-commerce platform for a top-tier Nairobi restaurant. Integrated **PesaPal API** for secure, real-time digital payments (Cards/Mobile Money).
- Architected a custom cart management system and real-time order tracking workflow, allowing the business to process thousands of digital transactions monthly with 0% data loss during peak hours.

PROFESSIONAL EXPERIENCE

Inicus Innovations Limited | *IT Consultant* | **2024 - Present**

- Architecting digital transformation strategies for SMEs, focusing on scalable web architectures and cloud integration.
- Leading UI/UX implementation from Figma to production-ready React components.

Skill Consultants | *Frontend Software Developer* | **2023 - 2023**

- Developed responsive frontend architectures for international clients in the Canadian market.
- Optimized web performance and ensured cross-browser compatibility for high-traffic platforms.

INNOVATE | *Frontend Software Developer* | **2022 - 2022**

- Collaborated in a UK-based remote team to build modular, maintainable React components.
- Integrated RESTful APIs and ensured seamless data flow between frontend and backend services.

Microverse | *Technical Mentor (Volunteer)* | **2022 - 2022**

- Conducted 100+ professional code reviews for junior developers to ensure adherence to global best practices.
- Provided technical guidance on Data Structures, Algorithms, and Full-Stack development.

EDUCATION

Microverse | *Full Stack Web Development Program* | **2022**

- Mastered 1300+ hours of full-stack development using Ruby on Rails, JavaScript, and React.
- Collaborated daily with international developers via remote pair-programming.

Jomo Kenyatta University of Agriculture and Technology (JKUAT) | *Degree/Certificate* | **2010 - 2014**
